

Parents - join our Terrell County ISD School Health Advisory Council - we need you!

The following information will be helpful to you in finding out more about our TCISD School Health Advisory Council (SHAC) and Coordinated School Health Programs (CSHP).

What is a SHAC?

In May 2001, the legislature passed Senate Bill 19. It requires each school district to implement a Coordinated School Health Program and to establish a School Health Advisory Council (SHAC) to make recommendations regarding that program. The SHAC must consist of at least 50% parents of current students, and school personnel are also on the council.

These councils serve in an advisory capacity and do not have any legal responsibilities within the school system. The SHAC members must be approved by the school board and comply with written by-laws of the organization. Our TCISD SHAC meets at least four times per year.

There is an orientation for new members, and each person has an opportunity to contribute to the agenda and to bring forth suggestions and concerns regarding school health issues.

What is a CSHP?

A Coordinated School Health Program (CSHP) model consists of eight interactive components. Schools by themselves cannot—and should not be expected to—solve the nation's most serious health and social problems. Families, health care workers, the media, religious organizations, community organizations that serve youth, and young people themselves also must be systematically involved. However, schools could provide a critical facility in which many agencies might work together to maintain the well-being of young people.

Eight Component Model of a Coordinated School Health Program

Do you want to take action to promote a healthy environment for our students, faculty, and staff? Here is your opportunity! Consider joining our district's SHAC.

****Only fill out and return form if you are interested in becoming a member of SHAC****
